

GFB Seminar 28th of June 2021, 3pm

Access:

<https://cnrs.zoom.us/j/98694632531>

ID of the meeting: 986 9463 2531

Access code: **WB0Cd9**

Program

15h: **Frédéric Lemaître** (Laboratoire Pasteur, ENS Paris)- Understanding Electricity Production from Microalgae with Exogenous Quinones: an interplay between modelings and experiments

15h45: **Timothé Philippon** (ISCR, Rennes) - Development of denitrifying biocathodes and study of their bacterial communities

16h05: **Wassim El-Housseini** (LCPME, Nancy)- A Hybrid Electroenzymatic Bioreactor for the NAD(P)H Cofactor Regeneration

16h25: **Umberto Contaldo** (DCM, Grenoble)- Engineered Rhodospirillum rubrum CO-Dehydrogenase supported on different functionalized carbon nanotubes for the reversible CO₂ to CO conversion
